

Baby

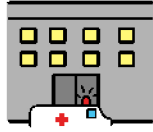

My Mom is having a baby. Her tummy will get bigger as the baby grows bigger. When the baby is

done growing, it is time for the baby to be born. Mom will go to the hospital to have the

baby. The next time I see Mom the baby will be with her. It might be a boy or a girl. They will come

home from the hospital together. At first, the baby will sleep and cry a lot. It is OK for the baby

to cry. Mom or dad will tell me when it is ok to touch the baby. I will use gentle

hands. Babies can't take care of themselves, so mom and dad will need to spend time with the baby. They will

play with me too, but I may need to wait.
