

I will get on the bus and ride to the bowling alley. I will take off my shoes and put

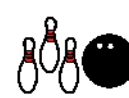

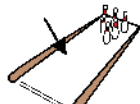

on bowling shoes. I will find a bowling ball and wait for my turn to bowl. I

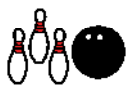

will roll my ball down the alley towards the pins. My ball will come back in

the ball return. I will wait until the ball stops moving to pick it up and roll

again. I will take my turn until the game is finished. I will put my bowling ball away

and take off my bowling shoes. I will put my shoes back on. I will get on the bus and

ride back to school. I will have a good time!
