

Evacuation Drill

My teachers keep me safe at school. Sometimes to be safe my friends and I have to leave school. We might leave through a door or go out of a window. When my friends and I are out of the school, we need to follow our teacher. We might stay near the school or we might have to walk on the sidewalk to another place. My teacher will say when we are safe to go back to school. I need to follow my teacher's rules so I can be safe.
