Following My Schedule

At school, I use a black folder schedule.

Following my schedule is expected. My schedule helps keep me safe and tells me where I am going. I go where my schedule says. When I finish an activity, I move it to the all done side. Then I take the next activity and put it on the front of my schedule to know where I am going next. If I need help with my schedule, my teachers will help me. Everyone follows a schedule. My schedule tells my teachers where I am going and helps keep me safe.
